# A Selection System That Works

Presented with Extraordinary Insight, Accuracy, and Wit by  
Nancye M. Combs from HR Enterprise, Inc.

Webinar held on Thursday, August 17, 2006  
11:00 a.m. – 12:30 p.m. (Eastern)

### Education from the Comforts of Your Office!

**Simple to access** - live training session, with visuals delivered via the Internet, and audio delivered via telephone (participating sites also receive hard copy of visuals).

### What You Will Learn

Research, old and new, has found that 25% of resumes contain outright lies. "Gut-Checks" are emotional decisions and rarely parallel the outcome on the job. You need a systematic and practical approach to be sure you get the Right Person for the Right Job.

Recruiting and selecting employees who are right for your business requires a system that is legal and designed to produce the outcome you want. The typical hiring process is filled with legal booby traps and deception by those who want a job – any job. This Webinar will provide the kind of education you need to be certain you have an employee selection system that works. Come with your questions for the Q&A session at the end of the program.
